

ARINC 818 SYSTEM

TRANSPORTABLE COMPUTER

TECHWAY
SIGNAL VISION SYSTEM

ARINC 818 easy-to-transport PC

• APPLICATIONS

- Test & measure
- Prototyping
- Qualification testing
- Engineering development
- Cockpit simulation labs

• KEY FEATURES

- ARINC 818 acquisition or reception
- PCIe card integrated
- Recorder
- 1TB memory
- DVI to ARINC 818 conversion
- ARINC 818 to DVI conversion
- Rugged chassis
- Keyboard and mouse included

• BENEFITS

- Ready-to-use
- Real-time
- Transportable

 AVIONICS

 DEFENCE

Ready-to-use interface

TECHWAY (France) & Great River Technology (USA) have join forces to design the perfect solution for engineering development and simulation of ARINC 818 hardware.

Installed in your system before delivery, Matrix PCIe card match your ARINC 818 interface. Thanks to Great River Technology application software, ARINC 818 computer is ready-to-use.

ARINC 818 computer allows ARINC 818 protocol acquisition or reception in an easy-to-transport station.
